Career Objective

Aspiring AI/ML Engineer with professional video editing expertise and proven hackathon leadership. Seeking opportunities in machine learning, AI development, and creative video production.

Education

B.Tech in Computer Science Engineering (AI & ML)

Trident Academy of Technology (TAT), Bhubaneswar
CGPA: 7.538 | 2023 – 2027 (Expected)

Secondary Education (10th CBSE)

D.A.V Public School, Sovarampur, Balasore
Percentage: 83.67% | 2021

Higher Secondary Education (12th CBSE)

D.A.V Public School, Sovarampur, Balasore
Percentage: 73.8% | 2023

Technical Skills

- Programming Languages:** Python, Java, C
- AI / ML:** TensorFlow, Scikit-learn, PyTorch, Hugging Face, OpenCV, Ollama, Model Training, Data Preprocessing
- Backend & Cloud:** FastAPI, Firebase (Firestore, Authentication, Cloud Functions), SQL, Docker, Vercel, Nginx
- Web Development:** React 19, TypeScript, Tailwind CSS, Vite, HTML/CSS, JavaScript
- Creative & Video Production:** Adobe After Effects, Premiere Pro, Media Encoder, Handbrake, Topaz Video AI
- Tools & Platforms:** Git, GitHub, VS Code, Claude Code
- Soft Skills:** Project Management, Teamwork, Adaptability

Projects

Ship Risk AI — AI-Driven Shipment Risk Prediction & Dashboard (<https://ship-risk-ai.web.app/>)

- Designed an end-to-end ML pipeline using Python (scikit-learn, pandas, numpy) that trains classification models to predict shipment delays and assigns risk tiers (LOW/MEDIUM/HIGH/CRITICAL)
- Built a modern React 19 + TypeScript dashboard featuring live shipment tracking on interactive Leaflet maps, Recharts analytics visualizations, and AI-powered natural language queries via Google Gemini API
- Implemented FastAPI backend serving real-time risk scoring with weather integration (Open-Meteo), aircraft tracking (OpenSky Network), and intelligent route optimization
- Integrated Firebase Firestore for real-time data sync and Firebase Authentication for secure user management; automated alert generation with CSV/PDF report export; deployed with Docker & Nginx

Internships & Certifications

Artificial Intelligence Intern — Plasmid Innovation Ltd, Marathahalli, Bangalore

Sep 2025 – Nov 2025

- Completed 2-month industrial training in AI-based applications with Excellent performance rating
- Received strong Letter of Recommendation for commendable contribution to AI projects (Cert ID: 0925CAI9935)

Artificial Intelligence Intern — Codec Technologies, Chandivali IT Hub, Mumbai

Jun 2025 – Jul 2025

- Hybrid role involving project-based training in AI/ML with periodic performance reviews

Web Development Intern — Glowlogics Solutions, HSR Layout 5th Sector, Bengaluru

Dec 2024 – Feb 2025

- Completed full-stack web development training; graded A+ (Ministry of MSME, Govt. of India)

Certifications:

- Web Development Certification** — Glowlogics Solutions (Grade: A+, Ministry of MSME, Govt. of India) – Cert ID: WD25-GL01-C013
- Web Development Certification** — Rinex Organization (Grade: A+, Google for Education Partner) – Cert ID: WD24-RNC0-9070

Hackathons:

- INNOVATE X 5.0** — National Level Hackathon (30 Hours), GIET Baniatangi | Team NeurAlgo | Core Developer & Project Head
- HACKIN'25** — Smart India Hackathon 2025, Trident Academy of Technology | Team NeurAlgo | Core Developer & Project Head
- AIoT Hackathon 2026** — “Idea for Impact” Innovation Mela, organized by thingQbator (Nasscom, Cisco) | Team NeurAlgo | Core Developer & Project Head

Extracurriculars / Achievements

- Felicitated with 'Shining Star' award by Trident Academy of Technology for outstanding achievement in inter-college events (Jul 21, 2025)
- Active participant in college hackathons and innovation events
- Continuous learner in emerging AI/ML technologies
- Core Developer & Project Head for Team NeurAlgo — led end-to-end development and team coordination across national-level hackathons

Languages

English (Working Proficiency) | Hindi (Fluent) | Odia (Native)

Interests: Artificial Intelligence, Machine Learning, Deep Learning, Full-Stack Development, Video Production
